

# X Public Access

## How it works for trucking companies

**What's the idea behind Public Access?** It's simple. Most industry truckers spend way too much time providing the same information and documents over and over to their forwarder clients. We provide a single place where you can post that information once, and be done with it.

**So how is that good for my customers?** It's easier for them. Instead of chasing you for information and waiting for you to provide it, they simply go to [www.exworks.com](http://www.exworks.com), click on your company – and print whatever they need. They get off your back – and you have made your company easier for them to do business with. That's a good thing for both of you.

**What information can the forwarders get?** Pretty much everything any forwarder needs to do business with you. Any visitor to [www.exworks.com](http://www.exworks.com) will be able to see your corporate name and address, contacts with phone and email, operational information like station hours of operation and fleet, as well as various documents like your insurance certificates, haz mat cert, and DOT certificate. If you pick up air freight shipments in the U.S., you can also include the STA details for each of your drivers, as required by the TSA.

**How about rates?** You can enter your public tariff. No one will be able to see your full tariff – but visitors to the site will be able to enter a zip code and airport or port and look up a specific rate for specific shipments.

**How long will it take me to put in all this information?** Most of your work is already done if you already use XVM to support Panalpina or DHL – plan on 5-10 minutes. If you have never used XVM before, expect on 30-60 minutes total. Our staff will walk you through the process.

**How much does Public Access cost the forwarder?** Nothing at all. Your information is publicly available, no cost, no login.

**How much will it cost me?** Just a few dollars a week for smaller trucking companies; contact us for details.

### **Need more business?**

*There are thousands of forwarders all over the country who are looking for services in your city.*

**We help forwarders find you.**

*When a forwarder needs to find a trucker in a distant port, they go to [www.exworks.com](http://www.exworks.com), type in the postal code and airport or seaport and weight – and we show them a list of the trucking companies in*

*Public Access that serve that route, together with their public rate. Be on the list – forwarders will find you!*

#### **About Ex Works, Inc.**

Ex Works organizes the information that flows between forwarders and the trucking companies they depend on.

Ex Works is the leader in its field, with over 1,200 specialized cartage, intermodal/drayage and linehaul trucking companies using Ex Works' services to do business with their forwarder clients. Ex Works electronically populates the tracking and A/P systems of leading forwarders, such as DHL Global Forwarding and Panalpina. Public Access is the newest service from Ex Works.

Contact Ex Works at [info@exworksinc.com](mailto:info@exworksinc.com), or call +1 617 378 3113.

## Drowning in compliance paperwork?

It's over. Post your information once – and you are done. Forwarders print whatever they need, when they need it – without ever bothering you again.

- ✓ Insurance certs
- ✓ Haz mat cert
- ✓ DOT cert
- ✓ **TSA STA information by driver**

*Put an end to the endless faxing of compliance documents and **get back** to running a great trucking company.*
